RE: Epoxy Flooring – Letter of Recommendation

To Whom It May Concern:

I recommend CCI Flooring as a qualified installer of epoxy floor systems. CCI Flooring was employed by Pepper Construction to furnish and install approximately 3,500 square feet of epoxy flooring with cove base in over 70 toilet rooms for a recently completed hospital project.

I recommend them based on their quality of work, limited punchlist, and maintaining critical schedule. Their field staff is top-notch and is evidenced by their willingness to do whatever it took to get the job done. I would hire CCI Flooring again.

Sincerely,

PEPPER CONSTRUCTION COMPANY

Re: CCI Flooring Letter of Recommendation

To Whom It May Concern:

Pepper Construction worked with CCI Flooring on the Northwestern Memorial Hospital OCP Project to complete epoxy poured flooring in the patient bathrooms on campus and sterile areas. The CCI Team displayed the utmost professionalism in all aspects of their business. Their office is diligent and accurate in their documentation – from proposals, to pricing requests to pay applications. Furthermore, and perhaps more importantly, the handoff of information from office to field is crisp and complete.

The field staff at CCI equals the professionalism of the office. The foremen we've been working with know the products inside and out and any important communication held with our superintendents is usually followed up with an email. This is helpful in ensuring that all parties are on the same page and the proactive approach is appreciated by our team. We would highly recommend CCI Flooring for any project, and feel they would be an asset to any team working in the healthcare environment.

Should you have any questions or wish to discuss further, please feel free to contact me.

Very truly yours,
Sincerely,

**RE: 1060 Project - Dura-A-Flex Flooring Installation
CCI Flooring Recommendation**

To whom it may concern,

I am writing in reference to CCI Flooring and their proposal to install Dur-A-Flex resinous flooring products for your project at Guaranteed Rate Field. Our contact at CCI Flooring, Keith Bauer, informed me of his bid and your meeting with him to discuss the project.

CCI Flooring has worked for Pepper in the past and installed similar Dur-A-Flex flooring systems on our project at Wrigley Field. The Dur-A-Flex product was used in both the central commissary and common corridors of areas in the basement levels of the project. As you likely know, this project is a multi-year endeavor and we still have a presence on site so I can tell you with certainty that the flooring and workmanship of the installation is withstanding the rigors of use in this environment very well. In fact, we have not had a single call back or punchlist item to correct for these systems installed by CCI.

Working with CCI was a positive experience, and I look forward to working with them on future projects. They were very knowledgeable about the products they installed and had a good understanding of the demands of our project. As one of the final trades to install their work, CCI anticipated that their installation schedule would be compressed against a hard completion date. They had a for completing their work in this shortened timeframe without sacrificing quality of installation. Whether it was their field or office staff, CCI always conducted themselves in a professional manner that helped lead to the success of the project.

Based on my experience with CCI, I would recommend them for use on your project. If you have any questions about our experience with CCI Flooring, please feel free to call me at 312-649-7365.

Very Truly Yours,

PEPPER CONSTRUCTION COMPANY
